Horizon 2020

Physical Internet Workshop

9-10th of October

Venue: MAN Truck and Bus Forum. Dachauer Straße, 667, 80995, München

---

Purpose

- Share and discuss the concept of the Physical Internet building consensus and providing feedback to ALICE Roadmap Towards Physical Internet.
- Discuss and share which topics will play a key role for logistics and link them to the Physical internet Development.
- Define main areas of development for the Physical Internet and connect different ongoing projects and initiatives to them.
- Identify specific short-term actions to get to next steps for the Physical Internet realization.
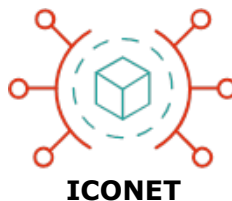

Audience

- ALICE members and external stakeholders with a focus on industry.

- Any stakeholder that wants to share a and ongoing initiative with the Physical Internet Community. Contact ALICE Secretariat for further information.

Approach

- Day 1 will be focussed on discussing the Roadmap itself, the key topics for future logistics development and their link to PI giving attention to immediate next steps.

- Day 2 will be more focussed on connecting the Roadmap with ongoing initiatives (research & Innovation projects), company implementations and start-ups that are contributing pieces to the roadmap.
