# JOIN THE TRA VISIONS 2022 COMPETITIONS

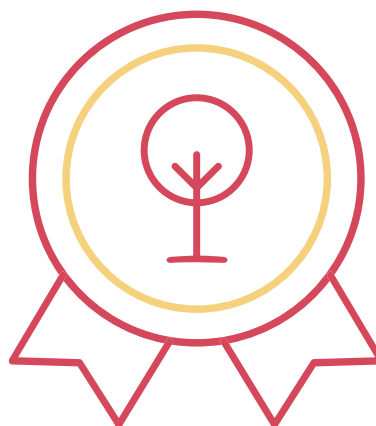

Submit innovative transport concepts for

ROAD / RAIL /  
AIRBORNE / WATERBORNE /  
CROSS-MODALITY

## SENIOR RESEARCHER COMPETITION

Senior researchers involved in EU-funded projects are encouraged to participate in the competition that will **identify and acknowledge leaders that generate impactful research in transport in the EU**. Winners will **receive awards from EC representatives and will present their work on an international stage**.

A **special award** has been introduced, to honor a "very" senior researcher who is about to complete or has already completed its career, and who has through the years made an outstanding and well-recognized contribution to transport-related research and innovation. An Open Call for nominations will be launched to the entire transport research community.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 824293.
