- SEC-BES 17-2017: Architectures and organizations, big data and data analytics for customs risk management of the international goods supply chain trade movements.

Presentations of project ideas looking for partners*

Interested participants in presenting a project idea need to share an **expression of interest by 5th of October** through the following e-mail: info@etp-alice.eu indicating the topic addressed and the organization requesting to do the presentation.

Draft presentations will be shared through info@etp-alice.eu by 10th of October. Not more than 4 slides including the project idea, the partners already engaged and the requested partner profiles searched. Note that presentation of partners and groups of partner's profiles will not be allowed. Those presentations meeting the requirements will be invited to do a presentation during the info day on the 11th of October. Other requests may be published in the [brokerage web](#) through specific profile.
