

Research's role & perspective on Paving effective pathways towards 2050 zero emissions logistics

Ehrler, Dobers, Davydenko 2018

Research's role & perspective on Paving effective pathways towards 2050 zero emissions logistics

Today

Logistics emissions accounting and reduction

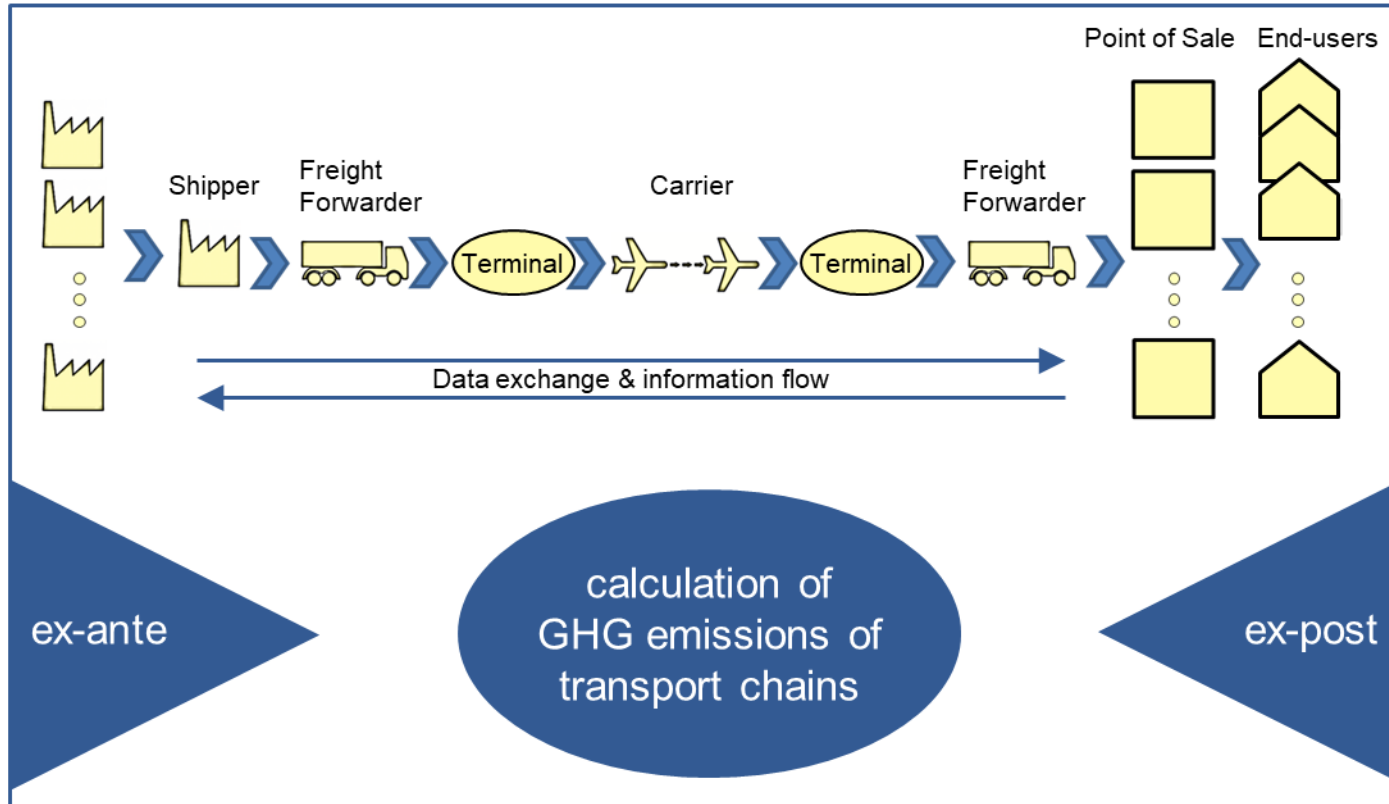

Partners

Harmonisation & full operational scope

Support for industry & implementation of best practices

Policy studies on EU, national & regional level

Ex-ante calculation for infrastructure projects

always based on assumptions, estimations and default values

ideally based on real, measured data; often relying on default values
