Unilever

## Implementation cases

From

to

# Second ALICE Logistics Innovation Award: Urban Logistics

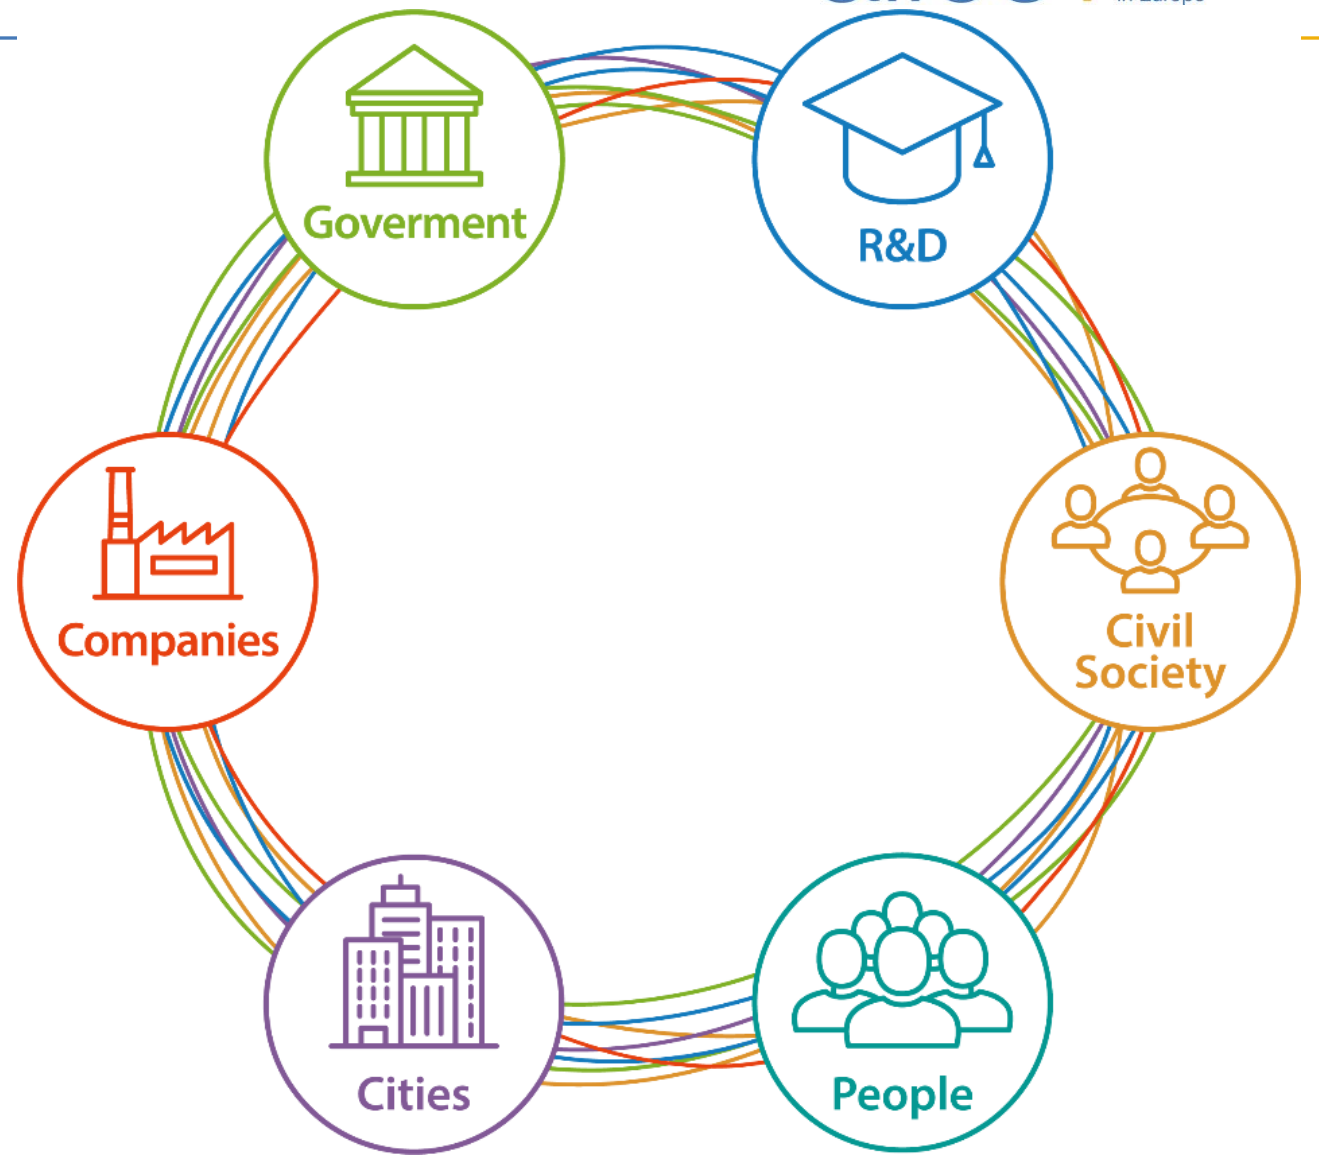

Submission: 9 June - 31 October 2021

Activities performed is part of

## BOOSTLOG

- ✓ For concrete examples in which causal links between public R&I funding and technology, organizational or process innovation in a specific logistics area can be established.
- ✓ For research results have been further developed and have been deployed as commercial solutions, have generated a new market or have contributed to new policies and will establish causal links between research funding and impact.

Thank you!
