# Agenda

**1. Welcome from C40 (5 min)**

**2. Panellist introductions (30 min)**

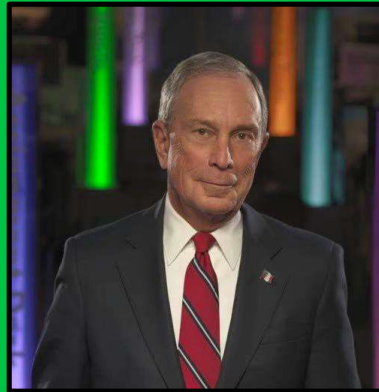

**3. Panel discussion (35 min)**

**4. Audience Q&A (20 min)**

**C40 Cities is a network of nearly 100 world-leading cities collaborating to deliver the urgent action needed to confront the climate crisis.**

**London Mayor Sadiq Khan, elected Chair of C40**

**Michael R. Bloomberg, President of the C40 Board of Directors**

**C40  
CITIES**

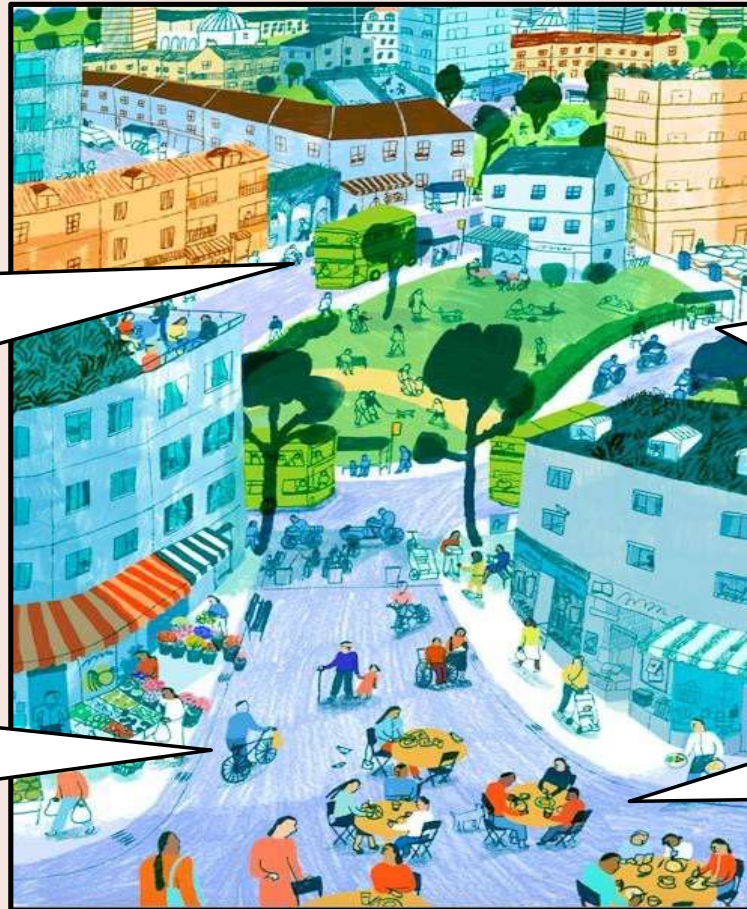

# C40's people-centered vision

High-mileage vehicles are prioritized for electrification

Overall number of private vehicle trips is reduced

Walking, cycling and public transport are safe and accessible

People-centered planning policies

## C40's unique role

**Knowledge  
sharing**

**Local support**

**City-business collaboration**

**What is one project,  
approach or idea that  
makes you feel hopeful  
about achieving zero  
emission urban logistics?**

**What are the key infrastructure challenges to achieving zero emission urban logistics? What infrastructure is needed the most at this time to accelerate the transition?**

**What is one thing cities can do to address these challenges? What is one thing businesses can do?**

**How can companies and cities share data to co-create policies and programmes that move urban deliveries closer to zero emissions? Any good examples or best practices?**

Q&A
