Alliance for  
Logistics Innovation  
through Collaboration  
in Europe

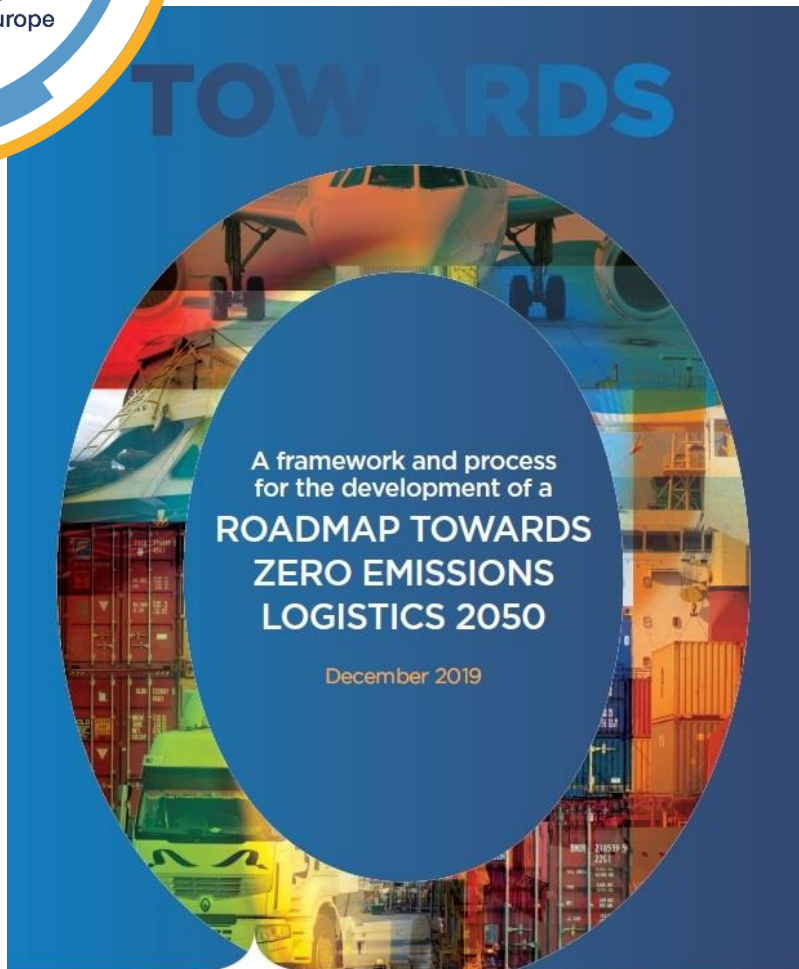

**[Webinar]** Insights, perspectives and results from the Intermodal Transport Survey and Resilience Transport Networks Projects

**Welcome & introduction**

Fernando Liesa

Secretary General, ALICE

The European Technology Platform ALICE

Link to the document →

Value of intermodality is on **Decarbonization** but what about:

- **Energy consumption**
  - Road 3-4 times more than road tn/km
- **Competitiveness**
  - higher price stability less dependence to oil prices in intermodal
- **Resilience**
  - driver shortage/pressure on road decarbonization
  - Less dependency of oil

# Share your use case or proof of concept

## Help ALICE accelerate logistics innovation.

Real operational experiences, pilots and Proofs of Concept are valuable to the community - especially what worked, what did not, and why.

### Turn your use cases into a collaboration opportunity for the ALICE network

#### Why submit

- Give visibility to your project, use case, organisation or deployment experience.
- Support synergies valorization, expert exchange and future innovation uptake.
- Contribute evidence to ALICE programmes, thematic work and EU-level discussion.

#### What to share

- Implemented solutions, pilots, early deployments and Proofs of Concept.
- Successes, barriers and lessons on technology adoption, interoperability, data exchange, governance or change management.
- Concise, evidence-based experiences from real operational contexts.

#### What to include

- Operational problem or need addressed.
- Application context: who, where and in which process.
- Technologies, data and systems involved, plus lessons learned from testing or implementation.
- Stakeholders with whom develop further

**Short, structured and evidence-based submissions are welcome**

### Submit now

Scan the QR code, download the template and email your completed submission.

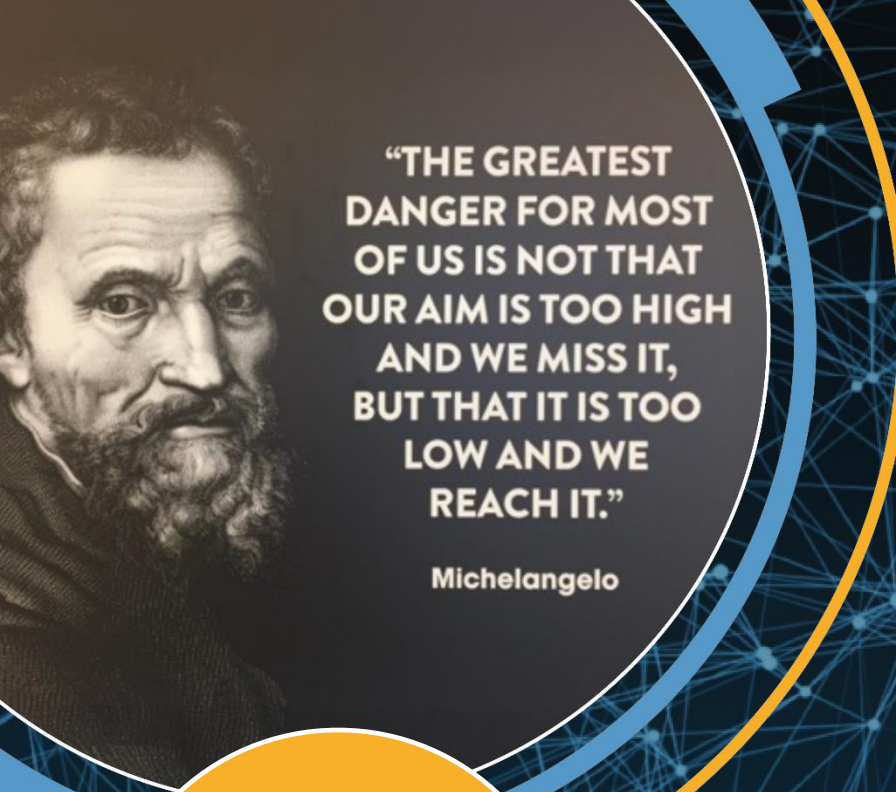

[info@etp-logistics.eu](mailto:info@etp-logistics.eu)

Members and non-members  
can contribute

What matters is that the case is factual, traceable and focused on operational experience rather than marketing.

Use cases may feed ALICE webinars, workshops, thematic activities, matchmaking and the Knowledge Platform.

“THE GREATEST DANGER FOR MOST OF US IS NOT THAT OUR AIM IS TOO HIGH AND WE MISS IT, BUT THAT IT IS TOO LOW AND WE REACH IT.”

Michelangelo
