**Autonomous Inland
Waterway Vessels: market
ready or are there still
links missing?**

AGENDA

6. Stakeholders panel discussion

Moderated by Nik Delmeire (ALICE)

7. Closing– Nik Delmeire (ALICE)

Can small autonomous inland vessel concepts enable real modal shift?

Technology is advancing. The real question is whether the market will follow.

Despite, increasing congestion, urban access restrictions, decarbonization pressure, labour shortages, road transport still dominated freight movements. So what is still missing?
