

The background of the slide features a futuristic, multi-modal logistics hub. In the foreground, a high-speed train travels on tracks, with green energy lines and data visualizations surrounding it. To the left, a road with trucks and cars is visible. In the background, a large container ship is docked at a port with several cranes. A city skyline is visible in the distance. A glowing globe with a network of lines is positioned in the upper left corner. The entire scene is set against a dark blue background with a complex network of white lines and dots, resembling a global logistics network. A large, stylized 'A' shape, composed of blue and orange curved lines, frames the central part of the image.

Rules for the webinar

The session will be recorded

This is in case you or other ALICE members wish to have a look afterwards*

Add your name and company

to identify yourself

Keep your microphone muted when the meeting starts.

You can introduce yourself when entering the meeting so you do a test (i.e. everybody can hear you)

Share your questions to the speakers in the GoTo chat

You are also welcome to share thoughts, suggestions or relevant information on the subject

Keep your cameras off if you are not speaking

The use of AI-based tools is strictly prohibited during the webinar

To protect the privacy and rights of all participants

You may ask any question on these rules before the start!

**A link to the video recording and pdf presentations will be shared with participants through e-mail*

**Waiting for other
participants to
join... 😊**

Funded by the
European Union

SEAMLESS is funded by the European Union under grant agreement number 101096923. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Climate, Infrastructure and Environment Executive Agency (CINEA). AGENDA

- **Introduction and welcome.** Tomasz Dowgielewicz ([ALICE](#))
- **From track & trace requirements to digital logistics coordination.** Jakob Lass-Ovens ([ISL](#))
- **ModalNET: The digital backbone of the SEAMLESS logistics ecosystem.** Pablo Giménez ([Fundación Valenciaport](#))
- **Route optimization and synchromodal planning for resilient supply chains.** Sofia Kokonezi ([NTUA](#))
- **Closing.** Tomasz Dowgielewicz ([ALICE](#))

Who is **ALICE** ?

ALICE, Alliance for Logistics Innovation through
Collaboration in Europe

not-for-profit association, registered in Brussels, since 2014

Recognized by the European Commission
as a European Technology Platform¹

1) European Technology Platforms, ETPs are industry-led stakeholder fora that develop short to long-term research and innovation agendas and roadmaps for action at EU and national level to be supported by both private and public funding. More Info on ETPs http://www.etp-logistics.eu/wp-content/uploads/2021/03/Logistic-TP-recognition-SWD_2013_272_F1_STAFF_WORKING_PAPER_EN_V2_P1_735480.pdf

Programmes, activity fields and projects

“THE GREATEST
DANGER FOR MOST
OF US IS NOT THAT
OUR AIM IS TOO HIGH
AND WE MISS IT,
BUT THAT IT IS TOO
LOW AND WE
REACH IT.”
